Reach Your

Goal!

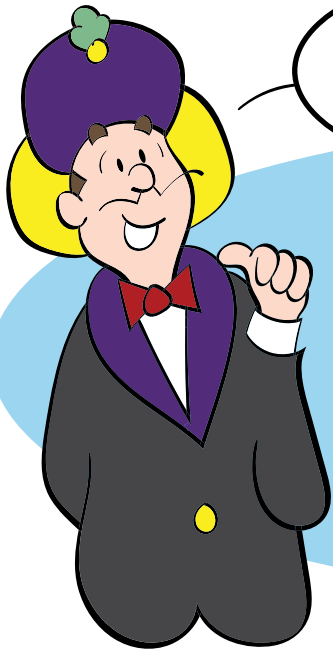

Making good decisions is easier when you weigh the benefits and the costs. The benefits are those things you'll gain from the decision, while the costs are those things you'll lose.

Separating benefits and costs can be hard, but not as tricky as spotting the 10 differences in these two pictures!

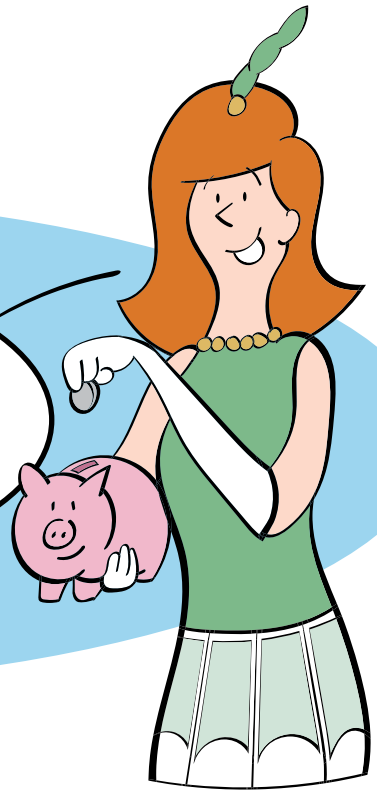

1. Feather is missing from hat; 2. Mustache is shorter; 3. Tie is different;
4. Jacket button is square; 5. Wand is changed to an umbrella; 6. In vesto is barefoot;
7. Less petals on the flower; 8. Leaves on plant are larger;
9. Hat on table is different; 10. Table has extra foot.

I want to have money for the things I want today and in the future!

The best way to have money today and tomorrow is to save! Saving is easy, too! Just keep adding a little bit to what you have and watch your money grow!

Putting your money in a savings account is smart! First, when you save in a bank your money is insured! That means it's safe! And, second, the money earns interest in a savings account so your money grows!
